Art Unit: 3682

The substitute specification filed March 9, 2007 has not been entered because the amendment to the term "relieves" to "relief's" is improper. The objection to the disclosure in the previous Office Action requested the phrase "crush relieves" to be changed throughout to --crush reliefs--. There is no need for an apostrophe in the term. An appropriate substitute specification is required.

Figures 7-9 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims 1-3 objected to as including the improper "relief's".

This application is in condition for allowance except for the following above matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte* Quayle, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
